Response to Amendment

The following is in response to the amendment filed on January 20, 2004.

Claims 15-22 are allowed.

The following is an examiner's statement of reasons for allowance:

As indicated in the previous office action, mailed October 20, 2003, the claims are allowed for the combination of a skull channel configured as a horizontal U-shaped cage with an open top formed by a plurality of cooling pipes and an induction coil arranged about the channel so that the open top is free of the coil. The prior art does not teach or suggest a melting/refining device having at least this combination of features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
